PREFACE

Vaalve has been a journey of creating some of the best stories around world class bathroom fittings for more than two decades. With our established presence in Saudi Arabia, UAE, we have been recognized for bringing unmatched quality in design and substance coupled with our singular vision of making exquisite bathroom fittings at affordable prices.

With faucets as our core product, we are the fastest growing brands in India offering a full range of bathroom fittings. With unique designs onboard, each one is crafted with dedicated expertise and passed through stringent quality measures to ensure the end result is a flawless one. Vaalve has had a clear sense of purpose and the core values continue to make our brand the most credible one in the market today.

Born at the intersection of art, style and advanced technology, each product catalogued with us has conquered the markets internationally over the years and our operational excellence and product sensibility will appeal to the Indian customer-base at first sight.

Vaalve seeks to bring its wide range of choicest faucets to the Indian homeowners with the most practical and functional designs that do not compromise on the aesthetics of bathroom appearances. We understand the tough water conditions of the country and its durability will stand matchless for our consumer base that explains every effort invested to craft bathroom fittings that stand the test of time.

Bring the change
to the changing India!

Vaalve with Faucets as our core product, we are the fastest growing brand in India & Nepal, offering complete bathroom fittings solutions and has proven its market in Middle Eastern countries since the past 25 years. Capturing the Indian hearts was a well-researched decision and 2017 was when we decided to bring our credibility home.

Vaalve offers the best mix for Indian households in collaboration with Giorgio Kertes. As a company, we work on two solid principles – making exceptional faucets and supporting our customers with exceptional services. These two principles have helped us gain traction in the last 25 years.

Vaalve is still in its infancy in India but we plan to go full throttle by this year end. But we are finding our footing as a pan-India brand operating in Nepal and Bhutan and we are confident of our market presence here. Vaalve is also committed to transparency across levels which is a plus for dealers looking to associate with us.

Take Delight of Vaalve Products

A 12-year warranty on all Vaalve faucets.

Vaalve offer a 12 year warranty on all functional parts. This warranty demonstrates our commitment to delivering a lifetime experiences to our customers.

Certified from

FAUCET TECHNOLOGIES

As representative of faucets, Vaalve introduced advanced technologies, and thanks to more than 20 years of accumulation of technology, Vaalve's products are easy to use, stable in quality, and efficient in energy. We focus in comfortable use, and at the same time take into consideration of the water-saving and environmental protection. Each Vaalve product represents the perfect combination of technology, quality and design.

Qualified brass material

Using high-class brass material to ensure the health of water using from source.

Low pressure casting

Adopting the advanced low pressure casting technology can avoid the possibility of air and impurity entrance. The castings will be with high density and fewer defects, which can ensure the durability of products.

Water saving design

Using air injection technique to make water flow be plentiful and lively, improve utilization of water.

Shinning plating technology

Double nanoscale plating finish with high hardness, good corrosion resistance and excellent abrasion resistance, is bright as mirror and enduring as time goes by.

Advanced surface finish process

After accurate milling, and full automatic polishing, the cast surface will be with clear outline to show the product design well.

CNC machining

The faucets are machined by CNC machine, with accurate and stable dimension, to ensure the stability of assembly and avoid the product leaking.

Qualified valve

Superior ceramic cartridge with natural alumina ceramic chip, which attains Mohs rigidity level 9, just less than that of diamond (level 10), and with the advantages of high temperature resistance, good abrasion resistance, stable chemical property, excellent anti-leakage capability and smooth switch. The life cycle of our cartridges is up to 500,000 cycles.

Fast installation structure

Using long barrel and large nut as installation components of faucets, make it convenient and fast to install the faucet firmly without any tools.

What Makes Vaalve's Faucet One-of-a Kind?

12 Years Warranty

Neoperl Aerators Save 80% Water

Trained Service Personnel

Durable for 5 lacs cycle test

Doorstep Delivery

On Site Plumbing Guidelines

Brass Ingots

Optimum Electroplating

Nation Wide Reach

LowFlow Capable

Brass extrusion forging divertors

Spare Parts Back Up

3 Protecting O-ring System

Zero Dip Technology

Production Process

The moulding, casting, grinding, polishing, electroplating and even the testing and assembly is done very carefully. We employ the best technology in the field of bathroom fittings. We use market information and trends to predict demand.

Research & Development

Vaalve has a strong research & development team in place, along with the best-in-class machinery, we create products of superior quality that are not only reliable, sustainable and durable, but also pleasing to the eyes and affordable.

Designed By Giorgio Kertes

The dawn of the Italian Renaissance was the dawn of arkhitekton and to have one of the high crafters sourced directly from the land of Italy has been our asset in the journey of being the market leaders in bathroom fittings. Our influencer Giorgio Kertes has been our key collaborator and source of inspiration for most of our product ranges such as the Loop and Nevassa. Sleek, minimalistic and timeless – Kertes designs are modern and creative hallmarks for modern environments setting the mood and tones of bathroom architecture into a head-turning experience.

Giorgio Kertes graduated as a Mechanical Engineer in 1974 and has given a new lease of life to the bathroom fixtures industry over the years. He has reigned in decision-making roles across Europe and in Italy and his journey rested with us since 1985. Vaalve has partnered with Kertes to renovate its entire product range and find newer aesthetics in each and every piece. He has also been involved in design, planning, engineering and internal production only to unearth what Vaalve truly stands for – timelessness!

Kertes is widely published in noted architectural magazines and widely circulated journals and university textbooks and since 2008, he has been offering his midas touch to multiple leading companies in the bathroom fitting and design business, Vaalve being one.

Giorgio Kertes clearly upholds the spirit of innovation and his designs are continually challenging the traditional way bathroom faucets are approached. Once a Kertes piece adorns your bathroom, they take a personality of their own allowing the homemaker to use their personal spaces with unhindered joy.

ARQUITEK - 811911

Loop

NPR - 84000

Like a celestial element floating along the wall, the Loop spout seems to magically deliver a stream of water. Loop's singular design still reigns supreme, not only for its aesthetic characteristics, but also for the mirror-like finish giving a highly reflecting effect to its surfaces.

ARQUITEK - 811907

Single lever bath/basin mixer
floor mounted
NPR - 65800

The line perfectly combines classic shapes with modern design. The delicacy and elegance of the shapes blend into a timeless design, making this a versatile collection adaptable to different bathroom solutions.

designed by Giorgio Kertes

Shower heads have become veritable designer objects in the bathroom, they are ever more important. Arquitek has always sought to find multiple solutions, from designer as well as classic points of view. To ensure that the moment of taking a shower assumes an ever greater significance, it has extended its range of thermostatic shower heads with their striking visual impact.

FAUCETS QUALITY PARAMETERS		
Sr. No	PARAMETERS:	MEASURING CRITERIA:
A		
BRASS COMPOSITION		
1	Brass- IS: 1264-1989	Copper- 57.0% - 63% Tin- 0.0% - 1.0% Lead- 0.5% - 2.5% Nickel- 0.0% - 1.0% Aluminium- 0.2% - 0.8% Magnesium- 0.0% - 0.5% Total impurity- 0.0% - 2.0% Zinc- Remainder
2	Brass- IS: 319-1989	Copper- 57.0% - 63% Lead- 0.5% - 2.5% Iron- 0.0% - 0.035% Total impurity- 0.0% - 0.7% Zinc- Remainder
B		
CHROME PLATING		
1	Plating Thickness - Nickel	9-11 micron
2	Plating Thickness - Chrome	0.3-0.4 micron
3	Salt Spray Test	Pass minimum 96 Hrs
C		
THREADING (FOR THE FITTING OF THE COMPONENT TO THE WALL FITTING)		
1	Type	Male threading (Applicable for all fittings - Faucets, Spout, Shower arm etc.)
2	Size (Diameter)	G 1/2 or G 3/4
D		
BRAIDED HOSE		
1	Material Certification	Food grade braided hose to be used in Basin Mixer with WRAS of NSF approval
2	Pressure Testing	10kg/cm ²
E		
INNER PARTS		
1	Single Lever - Cartridge	35mm, 40mm & 47mm
2	Quarter turn - Spindle	1/2" & 3/4"
F		
FLOW RATE		
1	At 1 bar	6 Lt/min
2	At 2 bar	8 Lt/min
3	At 3 bar	12-14 Lt/min
